

## **Mathew Verghese**

I think that since I am young (22 years old) I would be able to think of new ideas that will help involve and engage the young people in the Church. Ever since I was in middle school, I noticed that many friends and peers of mine kept gradually leaving the Church. I believe that if they had found a stronger community at their parish, they may have experienced the presence of God in their life. I am passionate about helping people see God, so I would work hard to make sure our Parish is one of those places.

Skills – I am a proficient public speaker, so if we need to make announcements I can be of service.

Recent Parish Activities – When I was in high school, I participated in Work Camp three times and helped raise money for the program each time. I was also an active member of Youth Group. Currently, I volunteer at the new parish members desk once a month.

Years in the Parish – 15

Occupation – Software Engineer
